PRO ANGLER FC Leader

Fluorocarbon Coated

Oceanstream Pro Angler FC Leader is a fluorocarbon-coated co-polymer leader designed for superior abrasion resistance. It offers excellent flexibility and outstanding knot strength, making it ideal for trolling, jigging, and casting applications.

Mono Saltwater Leader

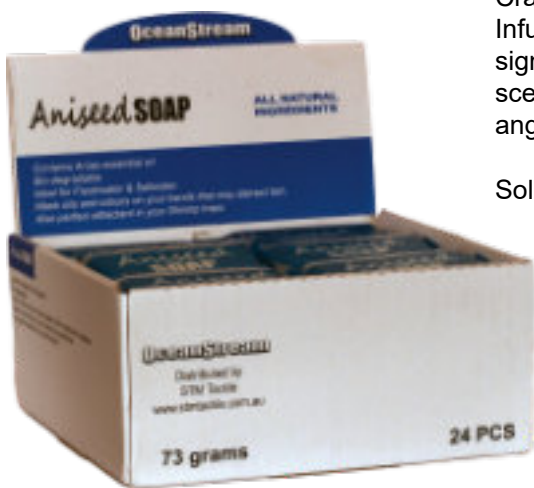

Clear - 100 Metres

OceanStream Mono Leader is a premium nylon co-polymer trace material designed for strength and reliability. It delivers exceptional knot strength and excellent abrasion resistance. Unlike fluorocarbon, it offers a slower sink rate—ideal for specific fishing techniques. In testing, it outperformed leading brands with the highest breaking strain for paternoster trace applications.

Aniseed Soap

Crafted with All-Natural Ingredients
Infused with pure Anise essential oil, this biodegradable soap is designed for both freshwater and saltwater use. It effectively masks human scent and oils that could deter fish, making it an essential companion for anglers. Also works as a powerful attractant in shrimp traps.

Sold in a convenient counter display: 24 bars (73g each).

Guardian 100

Guardian 140

Guardian 170

The Guardian is a high-performance lure ideal for targeting a variety of species, including Tailor, Salmon, Kingfish, Tuna, Cobia and Trevally. Engineered for both high-speed retrieves and rapid walk-the-dog action, it mimics the movements of distressed or wounded bait fish, making it highly attractive to predators. The Guardian is ready to use straight out of the package and has been rigorously tested and designed specifically to suit Australian waters.

The Tenterfield Dart is another model of the Legendary Australian designed Lures by Trevor Mcfeeters. After Trevors set back, Trevor asked JAZLures to bring back to life the Tenterfield Lure range. The first lures replicated in the range were the Tenterfield Shrimp 85 & 60mm and now the Tenterfield Dart has been introduced. The lure is built as strong as the Original with the same profile & fish catching features.

PARTY GRUB 1/4OZ

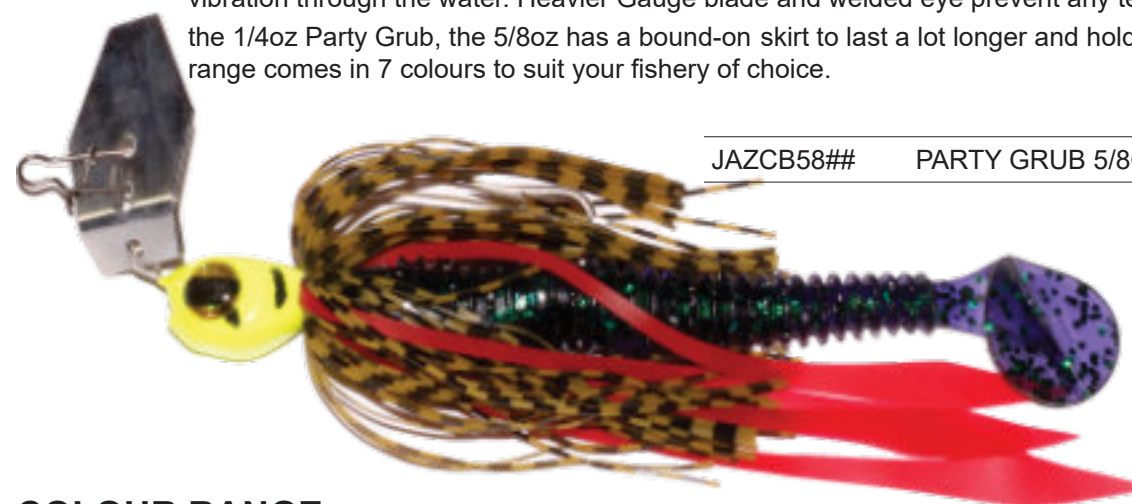

The Jazlures ¼ oz Party Grub is designed and specified for targeting the Australian freshwater favourites – Australian bass, Murray Cod and Yellow belly. the Party grubs' unique features are the tapered blade for a nice rapid and wide action secured by a welded eye finish. Skirting is bound onto the lure to prevent sun damage that is common with bands and extending the life of the skirting. O'Shaughnessy style hook giving multiple options from running a trailer or an assist hook for when the bite is hard. 8 mixed colour range to suit the mixed ecosystems from rivers to dams and clean to muddy waters.

JAZCB14## PARTY GRUB 1/4OZ CHATTER BAIT

PARTY GRUB 5/8OZ

The bigger brother of the ¼ oz is the 5/8oz. Aimed for targeting Murray Cod and Perch species the Party Grub features a ribbed paddle tail trailer to show off a much bigger profile to create a lot more action and vibration through the water. Heavier Gauge blade and welded eye prevent any terminal failure. Same as the 1/4oz Party Grub, the 5/8oz has a bound-on skirt to last a lot longer and hold up to abrasion. The 5/8oz range comes in 7 colours to suit your fishery of choice.
